

My mother started seeing Dr. Hecht when she developed problems with an old bridge. He took the time to find the best plan of care for her. He even called us after hours to check on her and make certain her needs were met. From Zella's friendliness at the front desk to Rosemary's patience at answering our treatment questions, the staff has been ~~so~~ <sup>nothing but</sup> professional and attentive. We have only positive things to say about Staten Island Dental Care.
