

May 30, 2018

As an ongoing patient of Dr. Hecht and friends I would like to recommend them for serious consideration if you are looking for thorough, skilled dental care.

Dr. Fred Hecht is more than an average practitioner. His competence speaks for itself. The examinations, the various treatment options such as sedation, etc. all demonstrate a high degree of dedication, - which makes you want return time after time.

Those that work for and with Dr. Hecht do so with utmost professionalism.

Rosemary, for example, who assists Dr. Hecht when he is engaged with the patients can only be described as very positive and

never disappointing.

Gina, who is fairly new to the office as a dental hygienist, goes out of her way to make the process as pain free and thorough as can be.

She is not to be taken for granted.

And Zel, the receptionist, is always the first one to greet you as well as the last to say goodbye when your done. She, like the others, goes out of her way to make you feel like a member of the family, a sweet and kind woman you'll never find anywhere else.

Finally, there are unexpected amenities. The reclining exam chairs have massage features. There are screen monitors showing the work performed, inside your mouth in the greatest detail. If music is your thing, then it will be provided.

After all is consummated you will receive a small bag containing some toothpaste, a toothbrush, floss, etc. for home use. You may even leave with a pen or umbrella!

And if your appetite still remains, snacks as well as coffee are in the waiting area.

Yes, Dr. Hecht has a rye sense of humor.

If you come with a frown - you will leave with a smite.

Sincerely,
Ira Pickman
