I would like to say I love Dr. Hecht and his staff they are all the best of people. From the time I was a kid I had severe phobia so I never wanted to go to the dentist, this was not a good thing. I went on line and found Dr. Hecht's office. I live in BKlyn but still I wait. This was about three years ago. That was one of the best things I could have done. Now I go every three months to have my teeth cleaned I feel much better and I am happy to smile again. I am not afraid anymore. Dr. Hecht help me so much. I feel safe there. I also had two implants done I have never had any pain with all the work that he has done on me. All the people make me feel very relaxed. I would say to anyone who has dental phobia go to Dr. Hecht's office you will be happy you did. They really are the best. Thank God I found them.
